**Germany's most dependable car:  
A 3-year-old European Ford.**

### **Ford Focus wins for Europe**

The TÜV, Germany's most authoritative body on setting and monitoring quality standards, recently declared Ford Focus the industry leader in reliability for cars between one and three years old.

Ford Focus is the first German-built car to secure this coveted Number One position in the prestigious TÜV Auto Report 2002 Awards since 1987. The exhaustive research by the TÜV organisation compares a total of 107 different models of approximately the same age from all manufacturers competing in the German market. Over 92% of all Ford Focus cars examined had no faults whatsoever. This latest award reinforces Ford's industry-leading quality and durability standards.

**At last the Germans admit Ford make the most reliable cars!**

**Illustrations, descriptions and specifications.** This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development.
