Special edition – Flight and Edge

**Model** Focus Edge **Colour** Tonic

# Ford**Focus**

## **It just keeps getting better**

One year from its launch, the Ford**Focus** was awarded European Car of the Year. Just over a year later, it became the world's best-selling car. Now, the name that's got everyone talking is making a new statement with two brand-new special editions – the stylish and fun-loving Ford**Focus** Flight and the sporty and luxurious Ford**Focus** Edge. The question is, which one can you see yourself in?

## **A versatile travelling companion**

If you want a car that shares your passion for life, take off in a new special edition Ford Focus Flight. Whether you're just nipping into town or taking your friends for a long weekend break, the Ford Focus Flight is designed to keep up with any lifestyle.

A contemporary and stylish exterior with 15-inch wheels. A distinctive interior with titanium-effect grey facia and exclusive Midnight Black Salomon seat trim. Inside and out, the Ford Focus Flight is truly unique.

## **Getting the balance right**

Take the quality build and sporty feel of the Ford Focus Zetec. Then add some touches of luxury and the result is the stylish new special edition Ford Focus Edge. The car that offers you everything you need as well as those little extras you've always wanted.

With its rear spoiler, 16-inch 5-spoke alloy wheels, leather-trimmed steering wheel and sports-style front seats, the Ford Focus Edge will make you feel truly indulged. And, as well as its modern safety features, air conditioning comes as standard – so you know that however long your journey, you and your family will stay safe and comfortable.

## **Technology with a leading edge**

Distinguished by its outstanding level of refinement, the Ford Focus engine range is the most efficient in Ford history. The Duratorq TDCi, a 1.8-litre direct injection turbo diesel engine, was developed specifically for Ford Focus to deliver radically enhanced levels of performance, a quieter, more refined drive, and reduced emissions.

Ready and raring to go

## Flight
